

FOUNDATION FOR SARCOIDOSIS RESEARCH

BE A PART OF CHANGE

FSR GLOBAL SARCOIDOSIS CLINIC ALLIANCE:

A member program consisting of clinics, hospitals, and individual providers committed to finding a cure and offering evidence-based, patient-centric care for those living with sarcoidosis.

To ensure that sarcoidosis patients in every community have access to information, education, clinical trials, and patient support services.

To identify, acknowledge and support clinicians through networking opportunities that enable learning, sharing and advancements in finding a cure and in continuity of care.

To accelerate research through FSR's global assets and funding. To structure research initiatives with a strategic approach driven by measurable data and insights.

To contribute to clinic outcomes through patient benchmarks and community health improvement services.

Join 36 clinics in this groundbreaking initiative to find a cure and secure better outcomes for patients.
