FOUNDATION FOR  
SARCOIDOSIS RESEARCH

## **JOIN THE FSR REGISTRY!**

As a person living with sarcoidosis, or connected to a loved one with sarcoidosis, you know better than anyone that more research is urgently needed to improve treatment options and find a cure. One major gap blocking the advancement of sarcoidosis research is a lack of patient data.

## **ONLY YOU CAN PROVIDE THE INFORMATION NEEDED BY SCIENTISTS TO ACCELERATE RESEARCH**

Information is power! As more patients register, more data becomes available to help guide researchers and clinicians in developing treatments and finding a cure.

## **REGISTERING IS FREE AND EASY**

The registry is online, user-friendly, and easy to understand. It only takes 45 minutes on average to complete and allows patients to continually update their information. If you are not a computer person, a friend or family member may help you complete the survey.

## **DATA IS CODED, UNIDENTIFIABLE, AND SECURE**

Your name and contact information is only accessible by FSR.
