| Initiative | Notes | 2020 | 2021 |
| :---: | :---: | :---: | :---: |
| Disease Model - Final Project | collaboration of multiple investigators $-\$ 2.8 \mathrm{M}$ over 5 years | 560,000 | 560,000 |
| Clinical Studies Network | Varying structure possibilities; avg. 15 sites @\$100,000 per year per site to support core study and industry studies (via \% of coordinator) | 1,500,000 | 1,500,000 |
| Fellowships | Completion in 2019, then new cycle in 2020-2021 for $\$ 125 \times 2$ each (x 2 years) | 250,000 | 250,000 |
| Springboard Grants Program | Yearly cycles for innovation via smaller grant opportunties | 200,000 | 200,000 |
| Endpoints Project | Year by year funding (organs specific) | 100,000 | 50,000 |
| Data Repository | Build out of a large registry with mass data collection and possible biobanking | 200,000 | 100,000 |
| Drug Development Partnering Opportunties AND/OR SARCAcceleration Project with NIH Collbarative Projects/Matches | TBD dependent on opportunities |  |  |
| Institutional and Sarcoid Expert Partnerships | Building collaborations, consensus, guidelines, sarcoid center level designation, etc. | 100,000 | 100,000 |
| Institute Resources and Infrastructure * | overall support for ops and infrastructure | 350,000 | 350,000 |
| Research Institute Investment |  | 3,260,000 | 3,110,000 |

|  |  | FSR SARCOIDOSIS AD |  |
