This Support Group and all associated events and activities are volunteer-led. While the Foundation for Sarcoidosis Research (FSR) helps connect sarcoidosis patients and their loved ones to support groups we believe create a safe space in which to share and learn, FSR cannot be held responsible for the content of meetings or for any harm or discomfort that may result from your participation in the group and its activities. Information shared by group leaders and members is not intended to be a substitute for professional medical advice, diagnosis, or treatment. Please consult your healthcare provider about any questions you may have regarding a medical condition.
